ONE
REHABILITATION
SERVICE

TELEHEALTH

ONE Rehabilitation Service provides online consultation (telehealth) services to clients who are unable to come into the clinic or have therapy services at home.

Telehealth uses video conferencing to deliver therapy services to people in their own homes.

Ashford SA 5035

Telehealth services are available to clients and carers* who:

- live in regional / country areas
- have medical conditions that may restrict their ability to have direct contact with a therapist
- live interstate or overseas
- are on holidays
- are unable to travel

*clinically appropriate

Telehealth consultations require an internet connection and can be conducted using online platforms.
